OZI Group

ABOUT NEXSKILL

"A Professional Learning Platform, designed and delivered by professionals."
NEXSKILL Pvt Ltd an EdTech company under the umbrella of OZI Group was founded in 2019, Having its operations in Lahore & Islamabad with head office in ARFA Software Technology Park, Lahore.

NEXSKILL is a platform that provides professional educational courses for job seekers to learn job-ready skills that enable them to build their careers. NEXSKILL, being one of the leading EDTECH companies in Pakistan provides Quality IT Education offering 50+ training programs in different domains.

With the help of Top-Level trainers in IT Sector, NEXSKILL has trained 10k+ student from all across PAKISTAN in Digital Marketing, Graphic Designing, Web Development, App Development, Video/Animation, Textile Designing, blockchain development, NFT development, Cyber Security & Amazon related courses.

Our Courses are designed to meet day to day professional need of Companies, we bring the best course outline after complete research of market to encounter the professional demand of different businesses.

HOW **NEXSKILL** HELPS YOU IN CAREER BUILDING?

Course Benefits

- Career counseling
- Career development as Penetration Testing
- Free help for aspiring students
- Internship program for students
- Help to stand as a freelancer

+20,000

Graduate Students

+100

Professional Courses

ABOUT OZI GROUP

Ozi Group, as the largest private incubator, plays a pivotal role in supporting Nexskill's graduates to access employment opportunities and launch successful careers.

Through our extensive ecosystem, we provide resources, mentorship, and networking opportunities to empower individuals trained by Nexskill to thrive in their chosen fields.

By bridging the gap between education and employment, Ozi Group ensures that Nexskill's graduates have the support they need to transition seamlessly into the workforce and achieve their professional aspirations.

Whether through job placements, internships, or entrepreneurship ventures, our collaboration with Nexskill enriches the journey of graduates, enabling them to realize their full potential and make meaningful contributions to the industry.

At Ozi Group, we are dedicated to enabling entrepreneurship and fostering innovation, ensuring that aspiring professionals receive the guidance and support they need to succeed in today's competitive landscape.

Job Placement Cell

At Nexskill, we believe in more than just providing education; we believe in transforming lives. Our commitment to excellence in IT training extends beyond the classroom, reaching into the heart of career development through our unparalleled Job Placement Cell.

What sets Nexskill apart is our holistic approach to education. We don't just equip our students with technical knowledge; we empower them with the skills necessary to thrive in the corporate sector. From effective communication to professional etiquette, we ensure that our graduates are ready to excel in any professional environment.

The Nexskill Job Placement Cell stands as a beacon of hope for aspiring IT professionals. Every day, we facilitate hundreds of job placements, providing our students and alumni with access to a diverse array of

Our mission is clear: to bridge the gap between academia and industry, opening new horizons of success and financial stability for our valuable students. Through the Nexskill Job Placement Cell, we provide not just jobs, but pathways to growth, fulfillment, and prosperity.

What truly sets our Job Placement Cell apart is our unwavering commitment to our students' success. Even after they complete their certification, we continue to stand by their side, offering guidance, support, and mentorship as they navigate the complexities of the industry

Join us as we empower futures and shape the next generation of IT leaders. With Nexskill, the journey to success begins here.

Full-Stack AI Course (6 Months)

This course provides a structured learning path covering **Data Science, Machine Learning, Deep Learning, and Generative AI**, ensuring hands-on skills with real-world applications.

Month 1: Introduction to Data Science & Python

Week 1: Fundamentals of Data Science

- **Introduction to Data Science**
 - Data Science Lifecycle
 - Applications & Career Paths
- **Python for Data Science (Part 1)**
 - Introduction to Python
 - Variables and Data Types

Week 2: Python Essentials

- **Control Flow & Functions**
 - Loops, Conditionals, and Functions
- **Data Structures in Python**
 - Lists, Tuples, Dictionaries, and Sets

Week 3: Data Handling with NumPy & Pandas

- **NumPy Basics: Arrays & Computations**
- **Pandas Basics: DataFrames, Data Manipulation**
- **Merging, Joining, and Aggregation in Pandas**

Week 4: Data Collection & Web Scraping

- **Web Scraping with BeautifulSoup & Selenium**
- **Introduction to APIs & Data Fetching**
- **Mini Project: Data Collection from Web APIs & Scraping**

Month 2: Data Analysis & Statistics

Week 1: Descriptive Statistics

- **Measures of Central Tendency & Variability** (Mean, Median, Mode, Variance, Standard Deviation) **Probability Distributions** (Normal, Binomial, Poisson, Probability Density Function)

Week 2: Exploratory Data Analysis (EDA)

- **Data Visualization with Matplotlib & Seaborn Correlation, Covariance, Outlier Detection, and Data Interpretation**

Week 3: Feature Engineering

- **Feature Scaling, Encoding Categorical Data Handling**
- **Missing Values & Feature Transformation**
- **Dimensionality Reduction (PCA, t-SNE, Autoencoders)**

Week 4: Inferential Statistics & Regression Analysis

- **Simple & Multiple Linear Regression (Concepts & Hands-on)**
 - **Model Evaluation Metrics (R^2 , RMSE, MAE, MSE)**
-

Month 3: Machine Learning Fundamentals

Week 1: Regression & Gradient Descent

- **Polynomial Regression Regularization (L1, L2) & Bias-Variance Tradeoff**
- **Gradient Descent (Types & Implementation from Scratch)**

Week 2: Classification Models

- **Logistic Regression (Binary & Multiclass) Decision**
- **Trees (Entropy, Gini Index, Tree Pruning) Model**
- **Evaluation (Confusion Matrix, ROC, AUC)**

Week 3: Ensemble Learning & Random Forest

- **Bagging & Random Forest Boosting: AdaBoost, Gradient Boosting, XGBoost, LightGBM**

Week 4: Unsupervised Learning

- Clustering Techniques (K-Means, Hierarchical, DBSCAN)
 - Anomaly Detection & Applications
-

Month 4: Deep Learning Essentials

Week 1: Introduction to Deep Learning

- Neural Networks Basics (Perceptrons, Activation Functions, Loss Functions) Forward & Backpropagation, Gradient Descent
- Optimization (SGD, Adam, RMSProp) Building Your First Neural Network with TensorFlow/Keras
-

Week 2: Advanced Neural Networks & CNNs

- Convolutional Neural Networks (CNNs) & Pooling
- Transfer Learning (ResNet, VGG, Inception)

Week 3: Sequence Models & RNNs

- Recurrent Neural Networks (RNNs) & LSTMs
- GRU & Transformer Overview

Week 4: Model Optimization & Hyperparameter Tuning

- Regularization, Dropout, Batch Normalization
 - Optuna for Hyperparameter Optimization
-

Month 5: Generative AI & LLMs

Week 1: Introduction to Generative AI

- Understanding LLMs, Transformers & Prompt Engineering
- Introduction to OpenAI's GPT, Google's Gemini, Meta's LLaMA

Week 2: Hugging Face & Fine-Tuning LLMs

- Hugging Face Transformers & Model Hub
- Fine-Tuning LLMs (PEFT, QLoRA)

Week 3: Generative Models & Applications

- GANs & Variational Autoencoders (VAEs)
- Hands-on: Image Generation with GANs

Week 4: RAG & Retrieval-Based AI

- Introduction to Retrieval-Augmented Generation (RAG)
- Building RAG-based AI Assistants

Month 6: Advanced AI Applications & Deployment

Week 1-2: LangChain for AI Applications

- Working with LangChain: Chains, Agents, and Memory
- Building LLM-Powered Chatbots & AI Assistants

Week 3-4: AI Deployment & Cloud Integration

- Model Deployment with Flask & FastAPI Serverless Deployment
 - (Hugging Face Spaces, Streamlit, Gradio) MLOps Overview: Model
 - Versioning, Monitoring & CI/CD
-
